

FOCUSED GROWTH

7-Step program so that you grow your business sustainably in the next 100 days

FOR founders and leaders of small, closely-held businesses

100-days is the perfect timeframe to get the **focus** you need to build irreversible momentum to grow sustainably.

A business boom is underway. 2021 and 2022 will belong to the bold and innovative as the risk-averse stay on the sidelines.

FOCUSED helps you adapt quickly, **innovate**, and **gain market share** while **others are swinging behind the pitch**.

FOCUSED accelerates your growth because it's a **Results Program** that uses a proven, repeatable **7-step process** so that you do the **right things in the right way** to succeed.

You get **transformation**, not in-consumable *information*.

You get the **right amount of guidance and support** so that you gain a clear way forward, set action steps to reach your goals, make smart decisions, and implement your game plan.

Christopher D. Kolenda, Ph.D., founder of the Strategic Leaders Academy, works with leaders of closely-held businesses who want to build great teams that take their businesses to new heights.

Chris is a West Point graduate, internationally renowned combat leader, retired Army Colonel, business leader, and author *Leadership: The Warrior's Art* -- which has sold over 50,000 copies. He has appeared on CNN, MSNBC, BBC, NPR, The Wall Street Journal, The Economist, The New York Times, and The Washington Post. His battlefield leadership has been featured in several books, including Jake Tapper's bestseller *The Outpost*.
