Topics/areas of expertise:

The Innovation Mindset: 3 action steps that turbocharge your business to new heights. Insanity, Einstein remarked, is doing the same thing over and over again and expecting different results. Complacency is doing the same things over and over again and expecting the same results. You have to innovate to thrive. Chris gives you the action steps you need to boost innovation in your business.

Awesome starts with WE: How to inspire people to contribute their best to your team's success. To build great teams that take your business to new heights, you need to start with the ABCs: Accountability, Buy-in, and Clarity. Like a venn diagram, you need all three interconnected. Chris gives you the process to get the ABCs right so that people put the We before Me and contribute their best to your team's success.

Your PROM (TM) Superpowers: Step-by-step actions to lead as your best self and build a winning team. Fake it 'til you make it is a loser-mentality. People spot a phony. Instead: Be for Real, Get the Deal. When you lead as your best and most authentic self and help your employees do the same, you will retain your top talent, execute to a high standard, and innovate. You'll avoid the mini-me syndrome that drives people away. Chris gives you the steps you need to activate your superpowers and help your employees do the same.
